

## Call for Nominations - The Novozymes Prize

The Novo Nordisk Foundation is pleased to announce the creation of a new European research prize, The Novozymes Prize. The purpose of the Prize is to raise awareness of basic and applied biotechnology research.

**The Novozymes Prize is awarded to recognize outstanding research or technology contributions that benefit the development of biotechnological science for innovative solutions.**

The Novozymes Prize consists of a funding amount for the awardee's research (DKK 2.5 million) and a personal award (DKK 0.5 million). An additional part of the Prize is an international symposium within the awardee's field of research.

Awardees must have a current position at a public or non-profit research institution in a European country. They can previously have worked anywhere and have any nationality.

The Novozymes Prize will be awarded by a prize committee that will select awardees based on their scientific achievements after a confidential nomination and review process.

With this Call for Nominations, the committee seeks the assistance of the scientific community in identifying the most worthy candidates for the Prize. Please support the establishment of this new Prize by nominating a scientist who has had a major impact on the development of biotechnology for innovative solutions.

The first Novozymes Prize winner will be announced in March, 2015.

**To submit a Prize nomination**, please complete the short form found [here](#). Last day for nominations is October 30, 2014.

## The Novozymes Prize Nomination Form

**Confidential**

Please complete all fields in English and send the nomination form to: [pjri@novo.dk](mailto:pjri@novo.dk)

## Nominator

Name:	Position:
Organization:	Address:
Email and/or Phone (in the event the committee wishes to contact you regarding the nomination)	

**Nominee**

Name	Position
Institution	Address

### Basis for the nomination

The nominee's outstanding research or technology contributions that have benefitted the development of biotechnological science for innovative solutions are: (max 250 words)

### Nominee's 5 most important publications
